This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

ORGANIZATION

OF THE

POST OFFICE DEPARTMENT,

UNDER THE ACT OF JULY 2, 1836.

The duties of the Department are divided, and distributed as follows, viz:

Contract Office.

To this office are assigned the duties of arranging the connexions of the mails on all the mail routes in the United States, adjusting the speed of the mails, fixing on the frequency of their trips, and the mode of conveyance, making out advertisements for mail service, receiving the bids, preparing them for the action of the Postmaster General, preparing forms of contracts, sending them out and seeing to their execution, examining and preparing for decision all propositions for changes in the mail service, fixing on the location of distributing post offices, directing the course of distribution, providing and sending out mail bags and mail locks and keys, and performing all acts appertaining to post roads which are necessary to put the mails in motion, and regulate their conveyance, speed, and connection.

This office is under the superintendence of S. R. Hobbie, Esq., *First Assistant Postmaster General*, to whom all proposals for mail service, and all letters relating to the making or changing of contracts and schedules, to mail bags, locks and keys, and every thing else having reference to the duties of the office, should be directed.

Appointment Office.

To this office are assigned all questions which relate to the establishment and discontinuance of post offices, changes of site and names, appointment and removal of postmasters, as also the giving of instructions to postmasters, furnishing them with blanks, and the performance of all other acts necessary to prepare post offices for the reception and proper management and distribution of the mails.

This office is under the superintendence of Robert Johnston, Esq., *Second Assistant Postmaster General*, to whom all letters relative to the subjects mentioned above, and all complaints against postmasters, should be directed.

Inspection Office.

To this office is assigned the duty of seeing that all postmasters at the beginning and ends of routes, and such others as may be directed by the Postmaster General, keep and return registers of the arrival and departure of the mails, according to law; of examining said registers, noting all delinquincies of contractors, and preparing them for the action of the Postmaster General; receiving and preparing for decision all special complaints against contractors; furnishing blanks for Mail Registers; and doing all other things which may be necessary to secure a faithful and exact performance of their contract service on the part of contractors.

This office is under the superintendence of Daniel Coleman, Esq., *Third Assistant Postmaster General*, to whom all mail registers, and all letters complaining of or reporting contractors, should be directed.

Postmaster General.

In addition to the general superintendence of these offices, the Postmaster General reserves to himself the special superintendence of the business connected with mail depredations; the rendition of Postmasters' quarterly accounts, the payment by postmasters of the balances due from them; the bank accounts of the Department; the opening of dead letters and the disposition of the valuables found in them, and every other matter having relation to the administration of the Department not committed to his three Assistants.

All letters relative to losses in the mail, or mail depredations; all letters from postmasters enclosing certificates of deposite; all letters of banks having reference to their accounts, and all other letters in relation to any matter or thing appertaining to the Department, which is not assigned by law to the Auditor, or by regulation to one of the Assistants, should be addressed to the Postmaster General.

Quarterly accounts should be so marked, on the outside, and directed to the "Post Office Department."

Auditor's Office.

The late law established the office of "*Auditor of the Treasury, for the Post Office Department.*" To this office, the law assigns the duty of settling all accounts of the Post Office Department, whether of postmasters, contractors, or others.

Charles K. Gardner, Esq., is the Auditor, and all accounts against or with the Post Office Department, (other than postmasters' quarterly accounts,) all letters in relation to accounts, all letters enclosing the receipts of contractors, all letters returning drafts on postmasters, and all other letters making claims or explanatory of accounts, should be addressed to him.
